REVISED DETERMINATION OF NONSIGNIFICANCE

The Department of Fish and Wildlife has considered comments received on the original Threshold Determination for this project and is providing additional information which may be of interest to other agencies or the public. The information provided does not substantially change the analysis of the significant impacts in the existing environmental checklist.

Name of Proposal: STREAM EXCAVATION FOR WILDLIFE ENHANCEMENT

Description of Proposal: The proponent plans to develop a wildlife pond by removing 1,500 cubic yards of bed material from an unnamed perennial tributary to Clugston Creek. Spoils will be moved to an upland site. Riparian vegetation will be planted.

The following permits may be required:

1. A water right permit from the Department of Ecology. Please contact the Department of Ecology's Water Resource program at (509) 456-4410, to determine if a water right permit is needed and can be obtained. Certain streams and lakes are closed to further consumptive appropriations.
2. A Reservoir permit from the Department of Ecology will be required. Please contact the Department of Ecology's Water Resource program at (509) 456-4410, to obtain a reservoir permit.

Proponent: Paul Dumas, 703 Williams Lake Road, Colville, Washington 99114

Location of Proposal, including street, if any: East of Residence at 703 Williams Lake Road, Colville, Washington, Stevens County; Northeast 1/4 of Section 07, Township 36 North, Range 39 East WM

Lead Agency: Washington Department of Fish and Wildlife

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of the completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

There is no comment period for the Revised DNS.
